Why Hardwood?

- Longer life expectancy
- Minimal heat loss
- Unrivalled strength & durability
- Perfect for keeping the character of more traditional or listed buildings
- Wood is an environmentally harmonious material and can be recycled.

Why Broadland Windows?

Since being established in 1974, Broadland Windows & Conservatories has been working with Hardwoods. Today our products boast the latest opening & fastening devices, together with an eco friendly paint and stain application. We manufacture and hand finish the products ourselves which gives the benefit that bespoke trims, inner window boards and the like will be a perfect match.

Unrivalled Choice

With Broadland Windows you will benefit from an unrivalled level of choice. Our professional advisors help you choose the best options for enhancing your property and its value.

You can choose from a wide range of colours, mouldings, handles and glazing. We pay full attention to the small details and you can trust that the advised solution will comply with stringent Building Regulations.

We include security multi-point locking as standard and offer many glazing enhancements, patterns and glass effects to make your door an entrance!

Hardwood Doors

Hardwood doors are as popular now as they ever have been. Hardwood is ideal for traditionally designed properties and easily provides an authentic look for listed buildings. Equally it can be utilised in high specification newbuild and contemporary refurbishments.

Any traditional design or feature can be recreated incorporating the benefit of double-glazing. While timber will require some periodic maintenance, our paint finishes and stains ensure

that this is much less of an issue. It is now available in a variety of factory spray finished stains and opaque colours (Light Oak, Mahogany, Teak, Walnut, Brilliant White, Magnolia, Cream, Mushroom, Sage Green, Moss Green, Grey and Black) and any choice from a further 200 colours.

We can produce doors with low threshold detail to ease your access. Letterplates and all door edges are draught sealed.

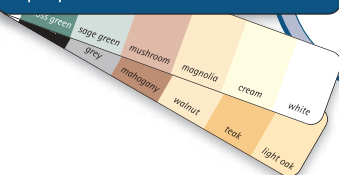

High Security Guaranteed

For all our hardwood doors we include high security multi-point locking and double-locking handles which comply with insurance companies' criteria.

Craftsmanship and Quality
